

STEP ONE: Click the orange button, then log in to the Facebook profile that owns your Business Page. If you do not own a Business Page (or have Admin access) you will not be able to connect us to that page.

STEP TWO: Click the checkbox next to the correct Business Page to connect our service.

*** There is no need to click the checkbox for your personal profile or any other business pages you own.*

STEP THREE: Once the connection is complete, you will be taken to our success page. You can click the button to connect us to another page if necessary, or close the window if you've completed all connections for us.

Schedule a Call! M-F 8am-8pm Sat-Sun 11am-3pm (EDT)
